

1.38" Diameter 500 Milliliter Fluid Sampler

Description: Fluid samples from deep boreholes can provide insights into the subsurface physical, chemical, and biological conditions. The 1.38" Diameter Fluid Sampler descends into the borehole, and the 500-milliliter sample is returned to the surface for lab analysis.

Diameter: 1.38"

Length: 64"

Housing: Stainless Steel

Weight: xx Lbs.

Temperature Rating: xxx degrees F

Pressure Rating: xxxx PSI
